

NJ Tree Foundation *Training & Education*

NJ Tree Foundation staff can help your community or organization enhance the safety and beauty of your forest. Providing a mix of classroom and hands-on workshops, we train staff and volunteers in appropriate tree care and maintenance practices. We tailor each workshop for tree advocates from novice to professional.

Trainings offered:

- Tree planting & maintenance
- Tree inventory & identification
- Young tree pruning
- Hazard tree identification

For more information about workshops and pricing please contact:

Lisa Simms, Executive Director
lsimms@njtreefoundation.org

Each hour of education is worth one Continuing Education Unit (CEU) from the New Jersey Forest Service, ISA and/or State Public Works Division

“NJ Tree Foundation staff are experienced dynamos - thank you seems totally inadequate to express our gratitude, on behalf of Verona Park Conservancy, for today’s training. When you can hold the rapt attention of an audience from novice to expert for an entire Saturday morning, AND even the pros go home with new tools in their kit - that’s a winning program. I can’t wait for the next phase of this training!”

- Deborah MacEvoy Jacobsen, Verona Park Conservancy
