

NJ Tree Foundation's Green Streets Program: Rain Garden Installation & Maintenance

Hire us to install the perfect rain garden for your needs!

Green Streets will plant, mulch, weed and maintain any size rain garden. We also offer maintenance services for rain gardens including weeding, watering, and revitalizing old rain gardens. Our staff is trained and certified by the Rutgers Cooperative Extension Water Resources Program.

Municipal, county, school, and corporate work welcome.

Camden rain garden before/after maintenance.

**For a free estimate please contact:
Lisa Simms, Green Streets Director
lsimms@njtreefoundation.org**

A 2,200 square foot rain garden in Hillsborough.

Please add the NJ Tree Foundation to your bid list.

The NJ Tree Foundation plants the right tree, in the right place, the right way.

We landscape for the future!

About Green Streets: Green Streets provides training and paid, temporary employment for ex-offenders. All profit secured through Green Streets goes directly into the NJ Tree Foundation's tree planting and educational programs which offer free street trees and stewardship training to New Jersey residents in urban areas.
